

CNC Titanium Machined Parts With $\pm 0.01\text{mm}$ Tolerance Annealing Normalizing Heat Treatment

Our Product Introduction

for more products please visit us on precision-cncparts.com

Basic Information

- Place of Origin: guangdonghuizhou
- Brand Name: ywy
- Model Number: ywy123
- Minimum Order Quantity: 1 Perch/Perches
- Price: USD 3.88-32.88 1 Perch/Perches
- Packaging Details: Carton packaging and blister box
- Delivery Time: 10-15work days
- Payment Terms: L/C D/A D/P T/T Western Union MoneyGram
- Supply Ability: 1000 Perch/Perches 10-15work days

Product Specification

- Material: Titanium
- Heat Treatment: Annealing/Normalizing
- Drawing Format: PDF/DWG/IGS/STP/X_T
- Surface Treatment: Polishing
- Size: Customized
- Processing Method: CNC Machining
- Application: Industrial, Medical, Aerospace, Etc.
- Packaging: Carton/Wooden Case
- Highlight: **CNC Titanium Machined Parts, Normalizing Titanium Machined Parts**

Product Description

Product Description:

We provide CNC Titanium Machining Components, CNC Machined Titanium Parts and CNC Titanium Machining Parts with 100% inspection and 1 piece MOQ. We have a variety of titanium materials, and our machining components can be processed with polishing, annealing and normalizing surface treatment.

CNC titanium machining parts have excellent physical and mechanical properties, such as high strength, low density, high temperature resistance, corrosion resistance, oxidation resistance, and good processability. By using CNC machining we can provide precise and complex components with high accuracy and quality.

We are professional in CNC titanium machining components, and can provide a variety of solutions to meet different customers' needs. If you are interested in our CNC titanium machining parts, please do not hesitate to contact us.

Features:

Product Name: CNC Titanium Parts

Size: Customized

Service: OEM/ODM

Drawing Format: PDF/DWG/IGS/STP/X_T

Heat Treatment: Annealing/Normalizing

Inspection: 100% Inspection

Customized Titanium Parts

Technical Parameters:

Parameter	Value
Size	Customized
Heat Treatment	Annealing/Normalizing
Processing Method	CNC Machining
MOQ	1 Piece
Material	Titanium
Packaging	Carton/Wooden Case
Inspection	100% Inspection
Tolerance	$\pm 0.01\text{mm}$
Drawing Format	PDF/DWG/IGS/STP/X_T
Surface Treatment	Polishing

Applications:

Ywy CNC Titanium Parts (Model Number: cnc505) are widely used in various industries for their superior properties. Made of titanium and with surface treatment of polishing, annealing/normalizing heat treatment and customized size with tolerance of $\pm 0.01\text{mm}$, these CNC Titanium Parts are strong, lightweight, corrosion-resistant and long-lasting. They are widely used for titanium CNC machining components, CNC titanium machining parts and CNC titanium turning parts. They are suitable for aerospace, medical, automobile, military, consumer electronics and other industries.

Customization:

Customized service for **CNC Titanium Parts** is available from YWY. Our CNC machined titanium components can be used in industries such as medical, aerospace and industrial applications. We provide OEM/ODM services and can do surface treatment like polishing. The minimum order quantity is one piece and every product is inspected for 100% quality assurance. All of our titanium CNC components are manufactured with precision and care.

Support and Services:

We provide technical support and services for CNC Titanium Parts, including:

- Installation guidance
- Troubleshooting assistance
- Product maintenance support
- Product upgrade services
- 24/7 technical support
