

Precision Anodized CNC Machined Parts Rapid Prototype Machined Parts

Our Product Introduction

for more products please visit us on precision-cncparts.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: yuanwenyu
- Certification: 1
- Model Number: 1X893, OEM
- Minimum Order Quantity: 50 pieces
- Price: \$2.35 - \$12.68/pieces
- Packaging Details: EPE foam/ Anti-Rust Paper/ Stretch Film/ Plastic bag +Carton
- Delivery Time: 1
- Payment Terms: 1
- Supply Ability: 1000000 Piece/Pieces per Month

Product Specification

- Delivery Method: DHL, FedEx, UPS, Etc.
- Drawing Format: PDF, DWG, IGS, STEP, Etc.
- Quality Control: 100% Inspection Before Shipment
- Material: Aluminum, Steel, Brass, Etc.
- MOQ: 1 Piece
- Surface Treatment: Anodizing, Plating, Painting, Etc.
- Tolerance: $\pm 0.01\text{mm}$
- Size: Customized
- Highlight: **CNC Rapid Prototype Machined Parts,
Anodized CNC Machined Parts,
Precision Rapid Prototype Machined Parts**

Product Description:

Our precision machined parts are designed to meet your exact specifications. We understand that every project is unique, and that's why we offer customized parts to meet your specific needs. Our team of experts will work closely with you to ensure that the parts we deliver meet your exact requirements.

We offer OEM/ODM services, which means that we can manufacture the parts according to your design and specifications. Our team of experts will work closely with you to ensure that the parts we deliver meet your specific requirements and are of the highest quality.

With a lead time of 7-15 days, we deliver your parts quickly and efficiently. We understand that time is of the essence, and that's why we work hard to deliver your parts as fast as possible without compromising on quality.

We use the latest technology in Computerized Numerical Cutting to ensure that your parts are precisely engineered to meet your exact specifications. Our state-of-the-art CNC machines deliver high precision and accuracy, ensuring that your parts are of the highest quality.

We offer delivery methods such as DHL, FedEx, UPS, etc., to ensure that your parts are delivered to you in the most efficient way possible. We understand that shipping can be a hassle, and that's why we work hard to make it as easy as possible for you.

Our CNC machined parts are suitable for a wide range of applications. Whether you need parts for the automotive, aerospace, medical industry, or any other industry, we can deliver top-quality parts to meet your needs. With our high-quality parts, you can rest assured that your project will be a success.

Features:

- Product Name: CNC Machined Parts
- Processing Method: CNC Machining, Turning, Milling, Etc.
- Application: Automotive, Aerospace, Medical, Etc.
- Material: Aluminum, Steel, Brass, Etc.
- Lead Time: 7-15 Days
- Size: Customized
- Features:
 - Precision machined parts
 - Computer-Numerically-Controlled parts
 - Computerized machining parts

Technical Parameters:

Product Attribute	Value
Product Name	Numerically-controlled machining parts
Size	Customized
OE M/O DM	Acceptable
Drawing Format	PDF, DWG, IGS, STEP, Etc.
Packaging	Standard Export Carton Or Customized
Material	Aluminum, Steel, Brass, Etc.

Quality Control	100% Inspection Before Shipment
Application	Automotive, Aerospace, Medical, Etc.
Processing Method	CNC Machining, Turning, Milling, Etc.
MOQ	1 Piece
Tolerance	±0.01mm
Product Description	Precision machined parts made with CNC machining, turning, milling, etc. Suitable for various applications in automotive, aerospace, medical, etc. industries. Customized sizes, OEM/ODM acceptable, and quality control measures ensure 100% inspection before shipment. Drawing formats include PDF, DWG, IGS, STEP, etc. Packaged in standard export cartons or customized packaging. MOQ of 1 piece with a tolerance of ±0.01mm.

Applications:

Automotive: Our CNC machined parts are used in the automotive industry to produce high-quality components that meet the industry's strict standards. These parts are used in the engine, transmission, steering, and other critical systems.

Aerospace: Our precision machined parts are used in the aerospace industry to produce components for aircraft engines, landing gear, and other critical systems. These parts must meet extremely high standards for quality and safety.

Medical: Our CNC-manufactured components are used in the medical industry to produce high-quality surgical instruments, implants, and other critical components. These parts must meet strict standards for cleanliness and precision.

Industrial: Our precision machined parts are used in various industrial applications such as manufacturing equipment, pumps, and valves. These parts must meet high standards for durability and reliability.

Our CNC machined parts are available in various models including 1X893 and OEM models. We manufacture our products in Guangdong, China, and our products are certified for quality and safety. Our minimum order quantity is 50 pieces and the price ranges from \$2.35 to \$12.68 per piece. We package our products using EPE foam, anti-rust paper, stretch film, plastic bag, and carton to ensure safe delivery. We offer fast delivery times and accept various payment methods for your convenience. Our supply ability is 1000000 Piece/Pieces per Month, and we accept OEM/ODM orders. We use DHL, FedEx, UPS, and other delivery methods to ensure timely delivery. We also have strict quality control measures in place, and we inspect every product before shipment. Our processing methods include CNC machining, turning, milling, and other precision machining techniques.

Customization:

Support and Services:

Our CNC Machined Parts come with comprehensive technical support and services to ensure that our customers receive the highest level of satisfaction. Our team of technical experts is available to assist with any questions or concerns regarding the installation, operation, and maintenance of our products. We also offer repair and replacement services for any defective or damaged parts. Additionally, we provide customization services to tailor our products to meet our customers' specific needs. Contact us for more information on our technical support and services.

Packing and Shipping:

Product Packaging:

All CNC machined parts will be carefully inspected and packed in protective material to prevent damage during transit.

The packaging will also include an itemized list of all parts included in the shipment.

Shipping:

Shipping will be done through reputable carriers to ensure timely and safe delivery of the CNC machined parts.

Customers will receive a tracking number and estimated delivery date once the shipment is processed.

International shipping is available, with additional fees and potential customs charges to be paid by the customer.

FAQ:

Q1: What is the brand name of the CNC Machined Parts?

A1: The brand name of our CNC Machined Parts is yuanwenyu.

Q2: What is the certification of the CNC Machined Parts?

A2: The CNC Machined Parts have a certification of 1.

Q3: What is the minimum order quantity for the CNC Machined Parts?

A3: The minimum order quantity for the CNC Machined Parts is 50 pieces.

Q4: What is the packaging details for the CNC Machined Parts?

A4: The packaging details for the CNC Machined Parts include EPE foam/ Anti-Rust Paper/ Stretch Film/ Plastic bag +Carton.

Q5: What is the delivery time and payment terms for the CNC Machined Parts?

A5: The delivery time for the CNC Machined Parts is 1 and the payment terms are 1. We also have OEM models available for purchase.

Note: The price range for the CNC Machined Parts is between \$2.35 - \$12.68/pieces and we have a supply ability of 1000000 Piece/Pieces per Month.
